#### **Investment Policy**

## The Sub-Fund seeks to achieve its objective by investing in Amundi Funds II – Absolute Return Multi-Strategy Master Sub-Fund.

The Master Sub-Fund invests, directly or indirectly, in a broad range of securities from around the world, including emerging markets. These investments may include government and corporate bonds of any maturity, equities, convertible bonds and money market securities.

The Master Sub-Fund may also seek exposure to commodities, real estate, and currencies.

The Master Sub-Fund may invest up to 50% of its assets in equities and up to 25% in convertible bonds (including up to 10% in contingent convertible bonds).

The Master Sub-Fund's investments will mainly be denominated in euro, other European currencies, U.S. dollar or Japanese yen.

The Master Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Master Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (either long or short) to various assets, markets or income streams. This may generate a high level of leverage. In particular, the Master Sub-Fund may invest in short and medium-term interest rate swaps. The Master Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets. At all times, the long positions of the Master Sub-Fund will be sufficiently liquid to cover obligations arising from its short positions.

#### Merging Sub-Fund Amundi SICAV II – Global Aggregate Bond

# Target Sub-Fund Amundi Funds Bond Global Aggregate to be renamed "Amundi Fund Global Aggregate Bond"

#### Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period.

Seeks to achieve a combination of income and capital growth (total return). Specifically, the Sub-Fund seeks to outperform (after applicable fees) the Bloomberg Barclays Global Aggregate Hedged (USD) index over the recommended holding period.

#### **Investment Policy**

The Sub-Fund seeks to achieve its objective by investing in Amundi Funds II – Global Aggregate Bond Master Sub-Fund.

The Master Sub-Fund invests mainly in investment grade bonds of any type, and in money market securities, from a broad range of issuers, including governments, local authorities, supranational entities, international public bodies and corporations from anywhere in the world. These bonds are denominated in OECD currencies or other currencies that are freely convertible.

The Master Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Master Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or income streams.

The Master Sub-Fund's use of derivatives may generate a high level of leverage. In particular, the Master Sub-Fund may invest in short and medium-term interest rate swaps. At all times, the long positions of the Master Sub-Fund will be sufficiently liquid to cover obligations arising from its short positions.

The Sub-Fund invests mainly in investment-grade debt instruments (bonds and money market instruments) of issuers around the world, including emerging markets. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the Sub-Fund invests at least 67% of assets in debt instruments that are issued or guaranteed by OECD governments or issued by corporate entities, including investment-grade MBSs and ABSs. There are no currency constraints on these investments. The Sub-Fund may invest less than 25% of the net assets in Chinese bonds denominated in local currency and investments may be made indirectly or directly (i.e. via Direct CIBM access) in Chinese bonds. The mortgages underlying the MBSs may be commercial or residential, and the MBSs may or may not have any form of government credit backing. The Sub-Fund's exposure to MBSs and ABSs is limited to 40% of net assets. This includes indirect exposure gained through to-beannounced securities (TBA), which is limited to 20% of net assets.

The Sub-Fund invests at least 80% of assets in investment-grade securities.

While complying with the above policies, the Sub-Fund may also invest in other types of debt instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%
- equities and equity-linked instruments: 10%
- UCITS/UCIs: 10%

The Sub-Fund's exposure to contingent convertible bonds is limited to 10% of net

#### assets.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit interest rates and foreign exchange). The sub-fund may use credit derivatives (up to 40% of net assets).

The Sub-Fund invests at least 80% of its assets in below-investment grade bonds, preferred stocks, convertible bonds, and mortgage-related and asset-backed securities. These securities will be from at least three countries, and may be from anywhere in the world, including emerging markets. Money market securities and cash may be included in the calculation of the percentage of the Sub-Fund's assets invested in below-investment grade bonds to the extent they constitute interest due on securities held in the Sub-Fund's portfolio and the value of securities pending settlement.

The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.
